Subject: RE: Picongen Patent Status

Jeremy,

Attached is a report on the status of various patents that certain of the petitioning creditors are interested in acquiring from the bankruptcy estate. To the extent that the right to pursue these patent applications is lost, the interest in acquiring the rights will be diminished. Has the trustee had any luck in communicating with Kluesing/Bartlett?

Patrick

Below us an analysis of the patent status of picongen

We will like to keep these assets in current so that the value if picongen is not minimized

As you can see from the report we have two payment deadlines in the next 30 days and a few that need revival using a patent lawyer.

Please discuss/bring to attention this with the appropriate body

Thanks
